

Preparing for A-level History at J6th

The topic you will be starting in September @ BHS is:

The Conservative Governments 1951-1964

This will cover 4 Prime ministers over 4 key themes: Political, Social, Economic and International

To get you off to a good start your history teacher would like you **develop an overview of this time period**. Please use the reading on the link at the end of this document but also your own research. Make your own copy of the table below and complete it with the findings of your research. Remember it is just an overview so does not require too much detail

You should try to find out some facts about the main events and policies for each of the key themes during the office of each Prime Minister.

Good luck, we hope you enjoy this investigation. Any questions, please email Mrs. Appleyard.

Prime minister Dates of Prime Ministership? Key leadership strengths/weaknesses	Political Election dates and winners/losers? Political scandals that damaged reputation of government?	Economic Was UK economy strong? Weak? Consider unemployment/wages/inflation	Social Key developments and legislation regarding women? Names of significant youth cultures? Nature of immigration? Government and societal responses to immigration?	International Key international events? Status of Relationship with USA? With the Empire? With Europe?
Winston Churchill				

Anthony Eden				
Harold Macmillan				
Alec Douglas-Home
