Last practice question: Using your understanding of the historical context, assess how convincing the arguments in these two extracts are in relation to why the First Crusade was successful.

- If you need help with relevant knowledge see previous posts such as 'Reasons for the success of the First Crusade (November 8th)'. Also attached two useful chapters from Phillips on the First Crusade. Some of you have the first attachment as you've already got the book but for those that don't have a look. Think some of you might also have the second attachment as it's from his book Holy Warriors.

Essay practice: 'The Kingdom of Jerusalem was secure by 1143.' Explain why you agree or disagree with this view. 25 marks

- A lot of your evidence for this essay will come from the notes attached in previous posts (see posts on politics, the military situation, trade and, relationships with the Byzantines as well as their Muslim neighbours). However, attached a chapter from Phillips on the establishment & consolidation of the Crusader states as it's a very good overview of the situation in the Levant in the first half of the twelfth century. Some of you have the chapter as you've already got the book but for those that don't have a look.
